Meeting Date: 11/22

Meeting Attendees

1. Nathan Cornelius
2. Anthony Huang
3. Carson Coen
4. Nick Truong
5. Ethan Ghoreishi

Meeting Agenda Items

- Once again make sure everything is up to date across all platforms
- Check in and remind everyone that we need to be doing an equal amount of work and set up realistic expectations to get back to a more even split of work.

Status Update Since Last Meeting

Accomplishments:

- Big progress on getting the website to be publicly hosted.
- Productive refinements for the code have been made to update the system.
- The manager view is getting much better.

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
Work on manager view	Nathan and Anthony	No (80%)
Work on chatBot dataset	Anthony	No (50%)
Work on Customer View	Nick	No (99%)

Before The Next Meeting

Plans:

- Everyone's assigned tasks need to see progress for sure, the rest of the project is starting to be dependent on work that hasn't been done.
- We need to keep a much better track across github and Jira of the tasks we have done and we will check in on this in the next scrum.

Task Assignments:

Task Description	Assigned to
Start the export report panel	everyone
Ensure documentation is up to date	everyone
Work on manger view even more	Nathan and Anthony
Finish working on chatBot dataset and determine QA	Anthony
Add dynamic pricing to cashier view	Carson
Adjust transaction labels to fit all resolutions in cashier view	Carson

Minutes from Previous Meeting

In the previous meeting we used the scrum to get everything back together and back on track before we got back on track with this project. The reasoning for this being that we all had test heavy weeks and needed to put more time elsewhere so this last scrum served as check in to get everything back on track.
