SCRUM Meeting 5 for Project 3

Prepared by: Nathan Cornelius

Meeting Date: 11/13

Meeting Attendees

1. Nathan Cornelius
2. Anthony Huang
3. Carson Coen
4. Nick Truong
5. Ethan Ghoreishi

Meeting Agenda Items

- Go over what we have finished since the last meeting and make sure that everyone else knows what tasks they are responsible for moving forward.
- Breakdown how we are planning on making the website accessible via tasks in Jira.
- Discuss team dynamic and how we are going to ensure equal work during the last stretch of the semester.

Status Update Since Last Meeting

Accomplishments:

- Big progress has been made on all the tasks we touched on last meeting by all members.
- Most views are being wrapped up and improved functionality is what is currently being implemented.

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
Finish the last few manager stats pages and test for functionality	Nathan	yes (a few left)
Connect all the stats pages to the manager view	Nathan	Yes (a few left)

Created Login API using Google OAuth	Ethan	80% completed
Basic Shopping cart foundation	Nick	70% completed
Added a la carte feature to cashier view	Carson	yes
Added inventory management to cashier view	Carson	yes
Added weather widget	Anthony	yes

Before The Next Meeting

Plans:

- Keep communication more consistent across all platforms so we are aware of each other's schedules and allow each other to have realistic expectations for the other team members.
- Make big strides in styling across all pages to ensure a better user experience.
- Continue upon the foundation that has been set for all of our accessibility requirements.

Task Assignments:

Task Description	Assigned to
Fix the styling on the manager page	Nathan
Add the last few manager stats apis	Nathan
Finish Google OAuth implementation	Ethan
Customer Order Confirmation	Ethan
Test cashier view fully	Carson

Finish Shopping cart functionality	Nick
Implement service bot	Anthony

Minutes from Previous Meeting

In the previous meeting we touched on better organization and we have seen improvement since then but are looking for ways to continue to improve in this aspect. In addition to this all members of the team started working on higher level functionality since the last meeting and they will continue to do this in an efficient and effective manner. Since the last meeting we have touched upon everything that was laid out and this allowed us to move forward a lot more in this meeting.
